VIRGINIANS FOR THE ARTS VIRGINIANS FOR THE ARTS FOUNDATION

February 28, 2005

Bobby Hull

Dear Bobby:

Here are some special photos of the 2005 VFTA Legislative Reception—Thanks so much for your help to make this conference a great event, Bobby!

Here are some words to describe your participation:

St. George Productions absolutely MADE our event, the 2005 Legislative Reception. Appearing in full Renaissance array, these actors announced dignitaries entering the room (by trumpet) and circulated with guests and engaged them in conversation. One actress, portraying Queen Elizabeth Regina II, made an exceptional, brief speech to legislators and other attendees at the reception about the value of the arts, completely in keeping with purpose of the event, that was priceless! St. George Productions created a uniquely fun and festive atmosphere at our reception that could not be generated any other way. In evaluations of the conference associated with this event, many of our attendees referred to them and remarked that this was their favorite part of their conference experience.

Feel free to excerpt and adapt as you wish. It is all so true...

Best regards,

Trish Poupore
Executive Director
