After completing 1st time through, allow for 8 measures of interlude then go back to beginning and repeat:

Though we have come to an end
 And it's time to say, "so long my friend".
 I hope you can feel that the meaning is real
 when we promise to meet once again.

(then skip to pickup to measure 42:)

So bring on the starlight,
 make everything end right,
 a dream's just a mem'ry that grows.
 And the faire time was our time
 A dream time to share time
 The faire time was a fine time to know.

(repeat last line - "Yes the faire time...)
